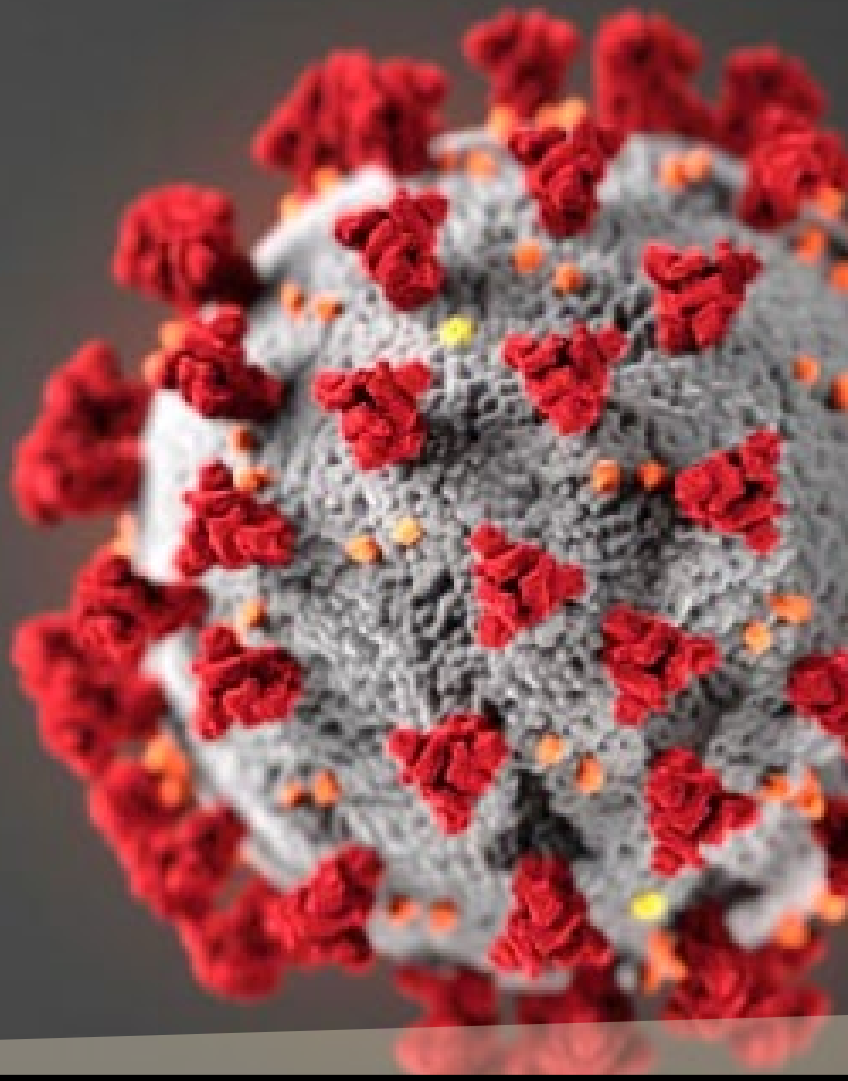
Ten at the Top Leadership Level Partners

NEXT TATT CHAT – NOVEMBER 5, 2020

TCTC Strong: Our Path Forward



Ten at the Top

October 22, 2020

TriCounty TECHNICAL COLLEGE

- How are we keeping students safe while still advancing our mission?
- What are the challenges before us?
- Why are community colleges a good decision in these times?

Immediate Priorities: Three Primary Goals

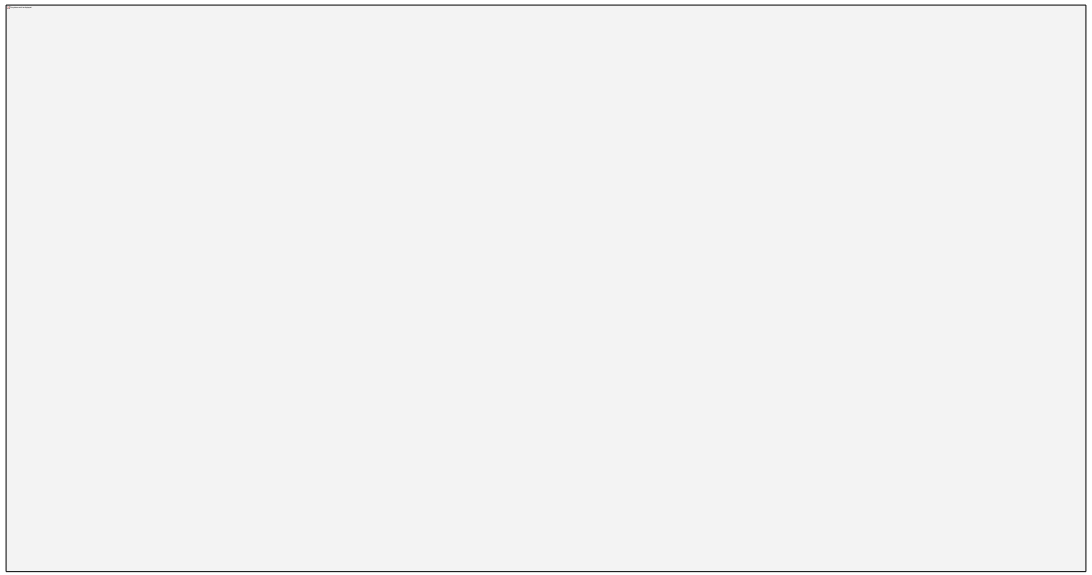
Create a safe on-campus learning and working environment.

Deliver high quality learning experiences for the 2020-2021 academic year.

Build-in student support within programs.

Safety AND Learning

- Restructured fall instructional delivery
- Redesigned and implemented a virtual enrollment experience
- Implemented student support into classes



Safety AND Learning

- Increased communication by holding virtual town halls, creating a weekly blog-style message to employees and students, and offering weekly virtual open door discussions with the Prez
- Implemented environmental controls for everyone returning to campus
- Transitioned the employee recruiting process online and held virtual job fairs

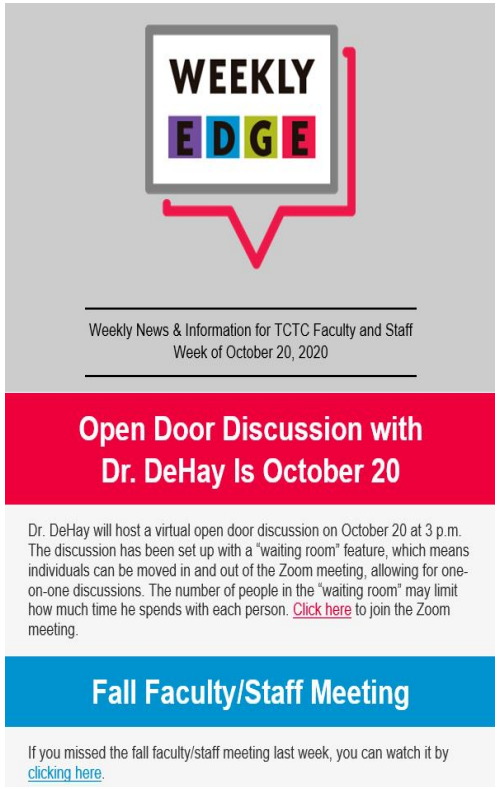
#SlowtheSpreadSC

I wear a mask because ...

I want to keep myself healthy



WEEKLY EDGE

Weekly News & Information for TCTC Faculty and Staff
Week of October 20, 2020

Open Door Discussion with Dr. DeHay Is October 20

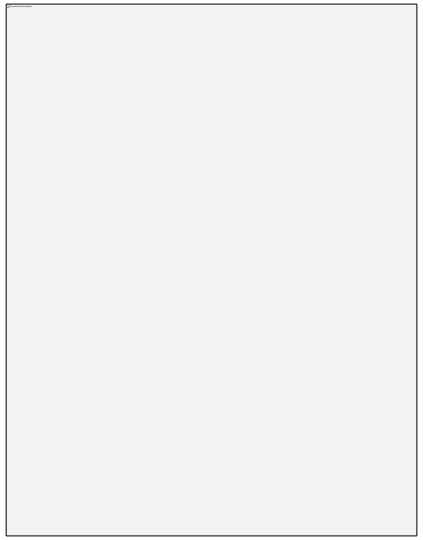
Dr. DeHay will host a virtual open door discussion on October 20 at 3 p.m. The discussion has been set up with a "waiting room" feature, which means individuals can be moved in and out of the Zoom meeting, allowing for one-on-one discussions. The number of people in the "waiting room" may limit how much time he spends with each person. Click here to join the Zoom meeting.

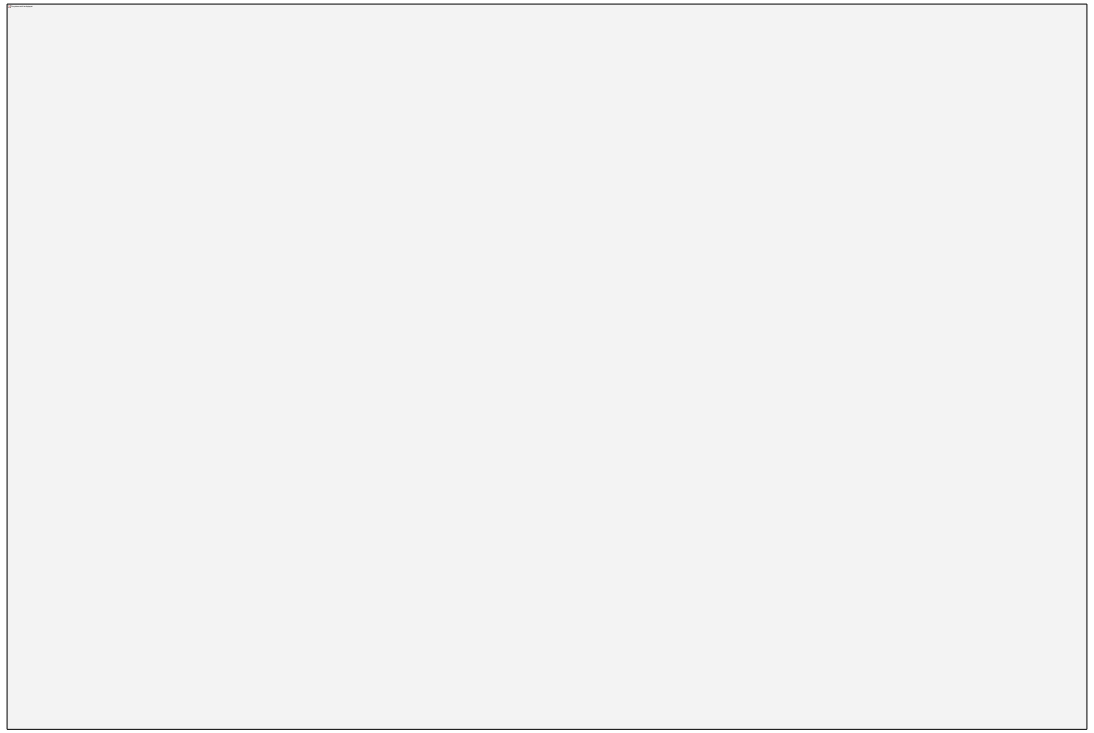
Fall Faculty/Staff Meeting

If you missed the fall faculty/staff meeting last week, you can watch it by clicking here.

Safety AND Learning

- Convened a Planning Task Force that conducts contingency planning and implements initiatives
- Created a student Workforce Completion Fund for on-going emergency funding needs

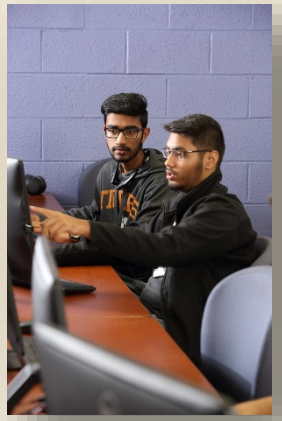




Looking Ahead

Our Communities Need Us Differently

TriCounty TECHNICAL COLLEGE



Challenges

- Barriers to Attend
- Equity Gaps
- Rapidly Changing Needs of Business and Industry
- Economic Impact of COVID-19
- Uncertainty

TriCounty TECHNICAL COLLEGE

RESILIENCE
Social Unrest
Economic Crisis
Global Pandemic

Priorities

- Make college fit in our students' complex lives
- Expand the workforce pipeline
- Build new partnerships and pathways
- Adapt to meet new business and industry needs
- Strengthen community relationships

TriCounty TECHNICAL COLLEGE

Why TCTC Remains a Great Choice

- Quality: Academic programs and partnerships with businesses that lead to careers that pay family-sustaining wages
- Support: Services that help students balance school, work and family
- Cost: Financial aid packages that cover the full cost of tuition

Why TCTC Remains a Great Choice

- Relevant: Programs and certificates that embed industry-recognized certifications, some of which can be completed in 14 weeks or less
- Transfer: Agreements with four-year colleges and universities
- Pathways: Programs and services that maximize student potential

Jack Brissey

- Earned 2 college certificates through our Technical Career Pathways Dual Enrollment Program
- Earned an associate's degree in industrial electronics
- Fulfilled Bridge to Clemson requirements
- Matriculated to Clemson debt-free!
